3	Fort Kent	23	24	21	17	85
4	Presque Isle	55	62	49	53	219
5						0
6						0

Section 11: A team score is determined by the place of the team's first four finishers.

(Example: If there is a tie for third, both skiers get three points, there would be no fourth place, the next place would be fifth.) For purposes of team scoring, no skier will be removed from the finish order except those entered as "Skimeister only" in that event.

Teams may never use more than six skiers to displace. If a team has fewer than four race finishers in an alpine or nordic event, each non-finisher will be assessed points equal to the total number of finishers plus one.

**The total number of ghost scores will be no more than one.**
